Professional Designer and Manufacturer of Auto Parts

As a Chinese listed company (Stock Code: 603197), Shanghai Baolong Automotive Corporation was founded in May 1997 and is located in Songjiang District, Shanghai.

Since its establishment, Baolong has been continuously expanding the lines of business, which include three categories of products. For Auto Electronics: Tire Pressure Monitoring System (TPMS), Pressure Sensors, Rain/Light Sensors, 360° View System; Lightweight products: Hydro-forming Automotive Body Parts; General Parts: Tire Valves and Accessories, Wheel Balancing Weights, Performance Exhaust Products, Air Springs and so on.

By establishing a strict quality control system, Baolong has obtained the quality and environmental system certification of ISO/TS16949, ISO14001, OHSAS18001. Up to now, Baolong and its subsidiary company own 112 international patents, of which 22 invention patents, 80 utility model patents are included. Baolong is the OEM supplier for the world's renowned vehicle manufacturers like: Benz, BMW, Audi, Land Rover, Lexus. By upholding the concept of "Let More People Benefit from the Development of Automotive Technology" as the company vision, Baolong will continue committing itself to constant innovation and development in the automotive industry.

Competitive Edges of Air Spring Shock Absorber

Good quality management system: With more than 20 years' experience in the auto industry, Baolong has set up a set of management system based on TS16949 and other quality management requirements of the Auto Industry.

More than 20 years of experience of rubber developing: we have already developed a lot of rubber formulations. Our bellows can meet all strict requirements of Air spring shock absorber.

ALL process in-house: Including rubber compounding, rubber mixing, vulcanizing, assembling and testing.
